

Continental Forests Ltd.

Forestry Services for Uganda

At continental forests we take good care of trees!

Our team of forestry and business experts offers services for all aspects of establishment and management of planted and natural forests.

From tree nurseries to wood processing, from certification to accounting - we offer one-stop solutions to turn your forest investment into a success story!

Currently we are managing over 5,000 ha of forests - increasing steadily.

Come, meet us and learn more about what we can do for you!

Who we are:

Continental Forests Ltd. has been managing forests in Uganda for more than 10 years. We currently employ a total of app. 100 people including foresters, social scientists, economists, technicians and field workers.

At the Kikonda Forests Reserve in Kyankwanzi district we have built up and are still managing one of the largest and most comprehensive private forest investments in Uganda. Further, we conduct a long-term livelihood improvement program that impacts several thousand people.
